

ROOF HATCH RAILING SYSTEM

U.S. Patent No's. Apply 6095283, 6347685, 6619428

HatchSAFE® is a full railing system with a self-closing safety gate, and integrated GRABSAFE® technology designed specifically for roof hatch openings.

The HatchSAFE® provides permanent, 4-sided protection.

SAFE
SIMPLE
DURABLE
ECONOMICAL

Never leave your roof hatch opening unprotected again.

References:

ANSI-ASC A14.3-2008

5.3.4.3 Hatch openings shall be provided with a means to facilitate access and exit from a fixed ladder (i.e. Grab Bars or other such items that can be grasped by the climber.

OSHA Regulation—Standard 29 CFR 1910.23 (a)(2)

Every ladderway floor opening or platform shall be guarded by a standard railing with standard toeboard on all exposed sides (except at entrance to opening), with the passage through the railing either provided with a swinging gate or so offset that a person cannot walk directly into the opening.

Application Use

All roof hatch openings.

Floor hole openings.

Quick Facts

Bolts to roof hatch curb with gasketed connection.

Railing meets OSHA Standard.

Self-closing Safety Gate for added safety.

Hot-dip galvanized finish for durability in exterior environments.

Ships “knocked-down” for easy shipping and handling, and transporting to installation site.

Easily installed with only a few common tools.

Benefits

Full railing around roof hatch opening.

Increase safety and fall protection.

Permanent, reduces the human factor.

Standard Features

Self-closing gate

Includes all hardware required for installation.

Adjustability to properly fit roof hatch curb irregularities

Four (4) standard sizes

HatchSAFE comes standard with the Self-closing Safety Gate. This gate is proven in thousands of applications throughout the world and provides another measure of safety, while meeting the U.S. Federal OSHA Standard.

Self-closing Safety Gate

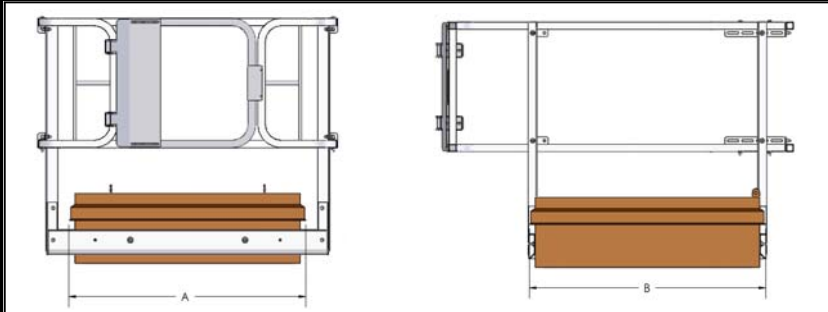

Full Perimeter Railing

GrabSafe® - Horizontal Grips assist personnel in transition from ladder to roof surface.

Railing Off-set provides for space within the railing system to step and make the transition from the roof hatch ladder to the roof surface, or vice versa.

HATCHSAFE SIZING CHART

HatchSafe allows for full opening of roof hatch.
